PHOTOSHOP MISUSE RULES

You must follow the core weird constraint: **You are not allowed to use any
layers. Everything must be done on a single layer.**

In addition, follow at least one of these misuse rules:

1. USE ONLY THE CLONE STAMP FOR ALL DRAWING
No Brush Tool allowed – build shapes and textures by cloning from accidental marks.
2. USE SELECTIONS AS DRAWING TOOLS
Create shapes ONLY by making selections and filling them.
3. You may use Type Tool, but the TEXT MUST BE RASTERIZED IMMEDIATELY
Then distort, warp, erase, smudge – anything goes.
4. NO UNDO (CMD+Z / CTRL+Z)
Work forward only.
