ILLUSTRATOR: VISIBLE SYSTEMS

Tool to Misuse: Illustrator (ONLY Illustrator)

Create an A4 portrait poster with the headline: "VISIBLE SYSTEMS"
Add ONE short supporting sentence of your choice, such as:
- "Every outline hides a structure."
- "The skeleton of design is always there."
- "To see a system, remove the surface."
(Or write your own.)

Format Constraints
- A4 (portrait)
- Two exports required (details below)

MISUSE RULE: You must design the whole poster in Illustrator's Path/Outline
View.

This means:
- Press Cmd/Ctrl + Y → stay in Outline Mode for the entire design process.
- No previewing allowed until the end.
- All decisions (size, weight, spacing, composition) must be made while se-
  eing only lines and wireframes.

EXPORT REQUIREMENTS

You must export TWO versions:
1. "System Version" — Outline Mode
   Make a screenshot while still in Path/Outline View.

2. "Surface Version" — Normal Preview
   Switch back to Preview Mode only at the very end.
   Export the poster as PDF or JPG.

REQUIRED ELEMENTS

Your poster must include:
1. Headline
2. One supporting sentence
3. At least one vector shape
4. At least one piece of text converted to outlines
